

Darth:

Because our families are intertwined, I thought you might enjoy reading some of the info gathered.

Also - I would appreciate any corrections - I want to get it as accurate as possible. However, in some situations I am not of 100% the facts as initially recorded but am adding them as alternate recollections. I am finding that Aunt Mildred & the Borgersen family (Honnie especially) had different remembrances. Honnie has been my backup reader & critic but I am respecting Mildred's input as well!

I started this history for our kids but at Mrs. Lane's indicated interest. For this reason I decided to do the stories in a bi-dee style. That way, anyone can have copies of all or parts of the info from a master copy. - Also - I am beginning to realize I might never be done, as I seem to always <sup>be</sup> making changes & adding new info.

At some point I will also be adding more personal reflections & plans that are for our kids & grandkids only.

I just pulled out & copied the "Open" info & a few "closed" bits of info. I'm open to corrections - Karen
