

Please his dentist told him  
he should try to get his teeth fixed  
someplace. This was a very good  
chance for him to come up to see  
me. After dinner he had them  
X rayed. He then went down  
to see how soon his truck  
will be leaving. He was too  
late! The truck had already  
come and was gone before he  
got down there. Another excuse  
to stay longer with me. The  
next day I had my day off.  
and we went down to the  
camp around 8 in the morning.  
His truck didn't come until and  
in the afternoon but we had  
a very nice morning together.

He had his writing case with  
him that he had left in England.  
In it there were several letters he  
had me read. The one Jimmy wrote  
~~so~~ just after Lutt had gone was  
very good. Norman said my eyes  
filling with water while I was  
reading it so he went away.  
Afterward we spoke of what a  
nice sister-in-law we had and  
also other things of home
