

Dear Grandma.

We are so glad to hear that you are back home again & getting stronger every day. We really hope you keep on improving and enjoy many more years of good health.

I will send you two pictures of the baby's baptism - not the best but I thought you might like them.

I have started back to work again - not for too long though. Everything is fine. We have a good lady to stay with the baby so I can more or less relax about that.

This greeting's filled with wishes  
All sincere as they can be  
That you're well started on the road  
To full recovery  
And that you'll keep improving  
Just exactly as you should  
Until the day when perfect health  
Is yours again for good

Get well soon,

Love,

Alice, Tom & Corinne.
