Dear Walter: Well a lot for the letter and I'm really glad to hear you are getting on again. I try to say I suppose the road one is a bit better and you may be able to get around a little. I since last I saw a letter from you have been around a bit. First of all I had the good luck of meeting up with Byron and what a surprise that was.

It seems much the same when you were glad to be over in this country and I was glad to see him. I spent about three half days with him. Then we had a real big job come up: We put three bridges across the Rhine and that was no small job. We were up in front of the Paris for several days and days the time it was ready to put in the bridge they was some ringing so I heard hardly hear.

When you get about 200 yams paper 25 pound long when you had well you don't have no spin stop!! Some of our boys will get a ribbon out of it, not me but I think my sp. will. They were spinning work in just the way to begin. Will the bag be able to get that again this year and what are you going to do for help. Is Harold going to stay with you? Hope George will be able to be home and help out.

Hope we lucky I should be around by next spring. Still want to see you and what you are going to do for a living but will find something B.C. is when I want to go but will see what the conditions are like when I do get back. There is really no little I can do so I have to be careful when I do find a job

*Let you young fellows will be away up on an
