

Aug. S. Lockrem

MANUFACTURER OF

THE MODERN FOOT POWER HAMMER

GENERAL BLACKSMITHING, CARRIAGE AND WAGON WORK

PIERPONT, SO. DAK.,

June 24, 1907

Friend Gustav Tostad.
We can furnish the stone for cellar wall, to be 7
layers high, which will make the wall 5 ft. and stone for
foundation to be 2 layers high, and do all the work,
laying same, and furnishing cement, & lime ^{for masonry} for
Building 28 X 28, and cellar 12 X 24 for \$110⁰⁰
I also figure on laying concrete under foundation
4 X 12 ins. Or if the wall is wanted 7 1/2 ft. high
from bottom of cellar, will do the job for \$22⁰⁰
The owner of the house is to furnish sand,
and do the hauling.
You may quote at this figure, providing
Arman Newman will do the work.
Yours truly Aug. S. Lockrem
