Ljusåker February 22, 1967

Dear relative Ruth,

Thank you very much for your letter last Christmas. I understand that you are under treatment for some heart-failure and now would like to know if any of your uncles or aunts ~~here~~ on your mother's side have the same heart-failure.

I shall try to answer your question as much as I know about these things.

Petter Sjöblom (born 1869, died 1935) His daughter Eva told me that he had heart-failure ~~and died after a~~ but didn't die very sudden.

Alarik Sjöblom (born 1871, died 1945) got heart-failure when he was in ~~the~~ his thirties. Avoided heavy work and died very sudden.

Emma Sjöblom, married Kullson (1877-1942) died in cancer.

6)

Alma Schenström, married Lidberg,
also died in Cancer. Born 1878,
dead 1951.

Johan Schenström (born 1883, dead 1938)
also ~~died~~ had heart failure.
Died suddenly during work. His
eldest son Kjell died in child-
hood. All his other children (9)
are alright. His wife Johanna
is still alive.

Magnus Schenström (1886-1928).
He died, only 42 years old, after
a train-accident on ~~the~~ his way
to his late father Christopher's
place, where the distribution
of the inheritance should take
place.

Olga Schenström, married Johanson.
She was the youngest of the
sisters and brothers. She became
my wife (I used to say that
she was the most precious
result of my employment at
Rusköle). Meningitis in connection
with high blood pressure ended
her life in 1941. She was born
1888. 25 years have passed
since then.

I have now had to write
as much as I know about your
mother's sisters and brothers
in Sweden. It might not be
very encouraging to read for
someone not feeling healthy.
But as your doctor seem to be
interested to know, I wanted
to write as much as I know.
We must remember that
our lives are in God's hand.

Now I should mention

Something about the relatives
still alive. Some of them we
met during our visit at Wilhel-
mine 1965. We stayed at
Elsa Danielsson, Aunt Emma's
youngest daughter, and her
husband. She has started a
bakery. They have a son and
a daughter. Both are married,
so now Emma is a grand mother.

The son is a teacher, do is
his wife. The daughter now
live close to Umeå (I think)
At Storuman we also met
many of Johan's children.

Also mother Johanna was here
in Lycksele lives Olga Holm-
gren, Aunt Emma's second
daughter. Hilda, the eldest
daughter lives at Rucksele, where

also uncle Henrik's son Gustav
Lives. We didn't meet him, as
he was out moose-hunting.
At Wilhelmina we met uncle
Petter's children Bengt and Söva
and also Ruth living in Strömsund.
At Storlien we met uncle Johan's
son Otto Schelström. We met
around 30 relatives during our
trip to north Sweden.

I will also tell you some-
thing about my own family.
I am 84 years old and feel
fine. Gretz, my daughter is living
with me. She just turned 50.
Ruth, her sister has been sick
in bronchitis for a long period.
She is married to Willo and
have 2 children, Sigvard and
Marie. Sven, my eldest child
has some problem with his
balance and speech. He sits
most of the time in wheel-chair.
He and Lollo, his wife have
got 2 children, Bertil and
Karin.

This was a little of
everything. I hope that you
will recover. I end this letter
with many greetings to you and your
family.

Yours sincerely
Uncle Johan
