

verse 1

We're the Canadian Tastad clan

Who've travelled from the North

We've come for fun and fellowship
and had alot of both

Though we mind the heat and clam

We're trying hard to cope

As we renew old relationships

Chorus

Hurrah, Hurrah.

The Tastad clan are we

Hurrah, Hurrah

A multitude you see

It's really quite a relationship

A great big family tree

The Tastad Reunion in '83

verse 2

Josie, John and Olga, too
Started things off right
Now their families have maintained
their hospitality
We truly do appreciate
the kindness and the love
TAKK for Sist and Vel be Kommen.
