Dear Martha

I am sending under separate cover a calendar to you & hope you'll like it.

We have had such a bad year for sickness as I would have gotten it away sooner.

Peter (my husband) had pneumonia before Christmas & then afterwards Richard my oldest boy became sick with meningitis & I am back just now from the hospital where I lost my baby. I had the flu before Christmas & have not been at all well but now I am just fine & do hope that I will remain that way.

We are getting a lot of snow & stormy weather just now but we did have lovely weather all winter & were able to drive cars all the time. We bought a new 1951 Chevrolet sedan car & enjoy driving in it so much. It really is too bad that you live so far
