Dear P.uth:

It was so nice to get your letter and hear about what you had been doing. About the children and the spring work, also about the school and W.M.F.

You boys must have been busy these days getting the seed in being it was Pa's lat. spring and so many stoups to go around. By this time you are most likely through with garden potatoes and all. We hear very little about Canal Pa does not read any more and the Radio news does not interest him either, so all we hear is from home by letters. We are kept busy going places. Last week, I left with Pa and we met Martin's daughter, a girl, niece of John's and enjoyed seeing her. Then we spent an evening at the home of Martin's brother, where we met the family of the Custado and the Pastor and the island. They are all very nice people. Friends we were at the Pastor's home where we met Prost, Blindheim, and True

Hope Norman & Eunice are getting along nicely in Springfield
and sure they have been doing getting settled.
